### WHY AMNESIA - A ROCK ALTERNATIVE

**WHY AMNESIA** is a female fronted Rock Export straight from the heart of Germany. On stage downtime is no option and Shirley Golightly (v), Sanni Wea (g), Theus Caster (g), Marv Kuschke (b) und Rob Ster (d) don't care whether it is a small pub, a club or a big festival: **WHY AMNESIA** raise the roof with their energetic show full of all-consuming passion.

Impressing with a powerful appearance and singer Shirley's cheeky straightforwardness which puts the audience under a spell, **WHY AMNESIA** signed a worldwide record deal with „Hotter-than-Hell-Records“ in cooperation with Zoundr, and published their third album **JACKS'N'HEARTS** in October 2018.

**JACKS'N'HEARTS** offers a range of alternative rock, hard rock, classic rock and grunge, but also influences of 70ies rock and orchestral ballads. Their songs tell about love, friendship, treason, failure and hope, but also you can find some political undertones.

And as they love to be on stage, **WHY AMNESIA** performed more than 50 shows in Germany over the past three years - upward trend. A tour in the UK in 2019 is about to be projected.
